

## **International Transfer Student Admission**

Admission requirements for international transfer applicants depend on whether you attended a college/university in Turkey or outside Turkey.

### **If You Attended a Turkish University**

Admission requirements will vary depending on your area of study; matching the requirements for transfer applicants who have completed one year at a Turkish university. Please contact us for more details as scholarships are only available to you if you have completed one year of University study. Scholarships are not available to you, if you've completed your sophomore year and looking to transfer into Junior year.

### **If You Attended a College or University outside of Turkey**

You must meet the following requirements for admission:

Above-average grades in recognized university course work

Satisfaction of our English Proficiency Requirements

Completion of academic upper secondary school (generally a total of 11-13 years of primary and secondary education)

A corresponding secondary school diploma or leaving certificate

Above-average grades in a secondary school program that is university-preparatory in nature

### **Transferring Credit from Colleges/Universities Outside of Turkey**

Recognized university course work beyond grade 12 may be accepted toward fulfilling your degree requirements at our partnered universities. Consideration is given on a subject-by-subject basis, and course descriptions may be necessary to make the final determination. If course descriptions are needed, you will be notified by the Office of Admissions.

### **Degree Audit**

Once you are admitted to the university, you will be able to review a Degree Audit summarizing the course work granted transfer credit and the minimum number of semester hours you must complete to earn your degree.

### **Application Process**

[Application process is same as the process for First-Year international students.](#)
